SENATOR BLAINE ON SILVER.

We give below an extract from the telegraphic report of the speech of Hon. Jas. G. Blaine in the Senate on the silver bill. It will be seen that the honorable gentleman is in favor of the remonetization of silver, but does not favor the Bland bill. For an Eastern man, however, this is a good deal. The extract is as follows:

Gold and silver coin are the money of the constitution. The organic law con-ferred no power on Congress to declare that either should not be money. Congress, therefore, has no power to demonetize silver any more than gold, or than it has to demonetize both; if, therefore, silver has been demonetized he is in favor of remonetizing it. If its coinage has been prohibited, he is in favor of ordering it to be resumed; if it has been restricted he is in favor of having it enlarged. Congress has exclusive power to coin gold and silver, and regulate their value. If Germany should remonetize silver and the States of the Latin Union re-open their mints, silver would resume its former relation with gold. He believes the European countries will be driven to full remonetization, then James W. Denver, having been appointed Secretary of the Territory, became Acting Governor December 21, 1857, and served as such till May 12, 1858, when he received the appointment of full remonetization, then they must of necessity adopt their old rates of 15½ of silver to 1 of gold, and then we shall be compelled to adopt some other ratio than our former of 16 to 1. If we fail to do this, we shall lose our silver, which will seek the highest of Governor. He continued in office as market out.
